

Active Shooter Exercise Toolkit

Unfortunately, active shooter events have become commonplace in our society today. Active shooter situations are unpredictable, evolve quickly, and require a coordinated response across multiple levels. Jurisdictions, agencies, and private sector companies struggle to find the time, funding and expertise to prepare their employees and response personnel to respond to the unthinkable.

To meet this threat, we offer the **Active Shooter Exercise Toolkit**. The Active Shooter Exercise Toolkit is a cost-effective solution designed to provide public agencies and private sector companies with the materials they need to design, develop, deliver and evaluate an active shooter drill. The Toolkit is designed to reduce the time and money required to conduct an active shooter drill.

The **Active Shooter Exercise Toolkit** includes a set of “How To Guides” for the lead planner, law enforcement, fire services, organization (school, business, non-profit, etc.) and volunteers. The guides outline timelines and tasks for all phases of exercise planning. There is also a set of “Core Documents” to help with meeting facilitation, HSEEP compliant documentation, and more!

Some of these documents include the following:

- Initial, Mid-, Final Planning Meeting PowerPoint Presentations
- Controller/Evaluator, Player, and Volunteer Actor Briefings
- Active Shooter Scenario/s
- Master Scenario Events List
- Exercise Plan
- Controller/Evaluator Manual with Exercise Evaluation Guides
- Victim Symptomology Cards
- Hold Harmless Agreement
- Release of Liability Agreement
- Participant Evaluation Form
- Hot Wash Instructions
- HSEEP-Compliant After-Action Template
