# HOMELAND SECURITY SOLUTIONS

## Assessment and Analysis

We can examine your emergency preparedness to help you better understand the threats or hazards faced by your community, and how to best use your available resources. Our analysts and experts use best practices from across the homeland security enterprise, along with industry-leading tools, to provide outcomes and recommendations that enhance your understanding of emergency preparedness issues.

## Strategy, Planning, and Governance

Successful emergency preparedness requires a clear strategy and comprehensive emergency plans. We provide strategy and planning solutions that are customized to the specific culture, dynamics, resources, and disaster preparedness challenges unique to your community.

## Training and Exercise

We are a single-source provider of exercise design, planning, facilitation, and evaluation. We specialize in the direct delivery of customized preparedness exercises, bringing you:

- Experienced exercise planners, including FEMA-credentialed Master Exercise Practitioners & HSEEP training course instructors
- Subject matter experts with strong knowledge of local challenges & resources
- Staff with an average of 10 years' experience planning & conducting preparedness exercises

We also offer a variety of practical training courses that help you prepare for all aspects of disaster, unusual occurrence, and emergency response. Our instructors are public safety professionals. Our training courses are mobile and can be brought to your location. We have designed and delivered hundreds of exercises for agencies and jurisdictions throughout the U.S.

## Community and Enterprise Resilience

We help to develop strategies and resources that can allow you to respond to a service disruption or emergency and then continue to grow and evolve. Our resilience customers range from business and industry, to hospitals, universities, and community emergency response teams.

Willdan is a leading, nationwide provider of value-added professional technical and consulting services. Our homeland security and emergency management services support customers across the U.S. and at all levels of the homeland security enterprise.

### Highlighted Customers:

- Federal Emergency Management Agency (FEMA), National Exercise Division
- New York Metropolitan Transportation Authority (MTA)
- Bay Area Urban Areas Security Initiative (UASI)
