CODE ENFORCEMENT SERVICES

Staffing

Willdan offers a diverse team of highly skilled professionals available to assist you full-time or part-time, catering to short-term and long-term projects. Our flexible scheduling allows our staff to work evenings, weekends, or as needed, providing you with the support you require.

Our team brings extensive experience working with public agencies and can seamlessly fill individual positions or even an entire division.

Management

Willdan has talented management personnel with all levels of experience to serve as code enforcement directors, code compliance managers and code supervisors.

Analysis

Willdan's team of code consultants hold over 100 years of experience in code program development and management. Our team is available to perform program assessments and make recommendations to improve code divisions.

Our staff has reviewed entire programs for several municipalities, but can also provide analysis of specific program areas such as code databases, revenue collection efforts, rental inspection programs, policies and procedures, and community based neighborhood improvement programs.

After analysis and recommendations are complete, Willdan staff is available to assist jurisdictions with the development and implementation process.

Development & Implementation

Willdan offers support in such areas as municipal code amendments, specialized programs, revenue protection and collection programs, and community-based neighborhood improvement programs.

Other Services

Willdan offers expert support with a multitude of other services. Contact us to discuss ways in which we can assist you.

ABOUT WILLDAN

Willdan is a leading, nationwide provider of value-added professional technical and consulting services.

Willdan has over 50+ offices across 20+ states – including key offices in CA, AZ, NV, UT, TX, FL, and NY. We have successfully worked on over 13,000 projects with municipalities nationwide.

Our team of certified code enforcement officers, plans examiners, inspectors, professional engineers, and architects can support every stage of a project – from permitting to plan review and inspection.
